Finsoft Corporation 匯財軟件公司

Develops Into Fund Management System Opening A New Income Stream

(Hong Kong, 29 December 2014) **Finsoft Corporation** (“Finsoft” or “the Group”; Stock Code: 8018), is pleased to announce that the Group has commenced a new project to develop a fund administration and portfolio analysis management system as a new series to its portfolio of internet financial platforms. The system will be a comprehensive suite of integrated solution modules which features the functions of portfolio analysis and simulation, compliance monitoring, risk management, trade execution, performance attribution, client report, back-office reconciliation etc. and is designed specifically for use by fund and wealth managers and institutional investors to facilitate their finance operations and investment administration.

The Group has successfully obtained the support from one of its customers who has entered into a service agreement with the Group dated 29 December 2014 in respect of the licensing and/or provision by the Group to the customer of the system or such other services to be more specifically set out in the definitive software agreement to be entered into by the parties at a service fee of HK\$20,000,000.

The Group considers that the system can open up a new income stream under the business segment of other internet financial platforms of the Group in the future, and will further explore any development opportunity to expand its business to areas with growth potentials.

About Finsoft Corporation (Stock Code: 8018)

Finsoft is principally engaged in the development, sale and provision of financial trading software solutions with the principal products being trading and settlement systems of financial products for financial institutions. The target customers of the Group are financial institutions which conduct brokerage business of financial products traded in Hong Kong, in particular Category B and Category C brokers and local banks. The Group has successfully developed and launched trading and settlement systems for a comprehensive range of financial products and has enriched its product line from trading and settlement system of securities to stock options, futures, forex and bullion. In the fourth quarter of 2013, the Group ventured into deal sourcing and deal matching business. On 8 April 2014, the Group obtained a money lenders licence in Hong Kong and then commenced its money lending business. In the third quarter of 2014, the Group has developed a new business segment of other internet financial platforms. Further in late October 2014, the Group has obtained the Type 6 Licence from the Securities and Futures Commission to carry on Type 6 (advising on corporate finance) regulated activities and commenced its business of advising on corporate finance in early November 2014.
